ABOUT ME

I am a dedicated Full Stack Web and Blockchain Developer with a strong foundation in building responsive, user-centric web applications and secure, decentralized blockchain solutions. With hands-on experience in both front-end and back-end development, I specialize in technologies such as JavaScript, React, Node.js, Solidity, and smart contract development on Ethereum-compatible chains.

EDUCATION

2017 - 2020
UNILAG

- Bachelor in computer science

WORK EXPERIENCE

2021 - PRESENT

Freelance Full Stack Web Developer

- Designed and developed responsive websites using HTML, CSS, JavaScript, and React, focusing on performance and cross-device compatibility.
- Built and integrated RESTful APIs with Node.js and Express, and managed databases with MongoDB and PostgreSQL.
- Delivered custom dashboards, landing pages, and full-stack applications for small businesses and startups.
- Collaborated with clients to gather requirements, propose technical solutions, and ensure timely delivery of quality code.

2022 - PRESENT

Blockchain Developer | Smart Contracts & dApps

- Developed and deployed secure smart contracts using Solidity for Ethereum and BNB Smart Chain.
- Built and tested decentralized applications (dApps) with Web3.js and Ethers.js, integrating wallet functionality (e.g., MetaMask).
- Audited and optimized smart contracts to prevent common vulnerabilities like reentrancy and overflows.
- Provided consulting for token launches (ERC-20, BEP-20), NFT drops, and Web3 integrations with existing platforms.

SKILLS

- Web Development
- React.js & Node.js Expert
- Blockchain development
- Front-end development
- Backend
- Smart contract
- Web3 DApp
- HTML, CSS, JavaScript, PHP
- MongoDB
- Bootstrap
- Solidity, Ethers.js, Hardhat.

LANGUAGES

- English
- Yoruba
